Bank ▨Ａ▨ Count Corp.

Time tested, integrated production processing systems ensuring accurate on time delivery of your documents.

The Organization

Bank-A-Count, a privately owned corporation, was founded in 1955 as a provider of bookkeeping information offered through an automated check recording system. In the 1960's Bank-A-Count used its state-of-the-art computer technology to become a national leader in the supply of loan amortization schedules and related financial computations. As computer use expanded nationally, payment coupons were developed as a product line in the 1970's, and check printing product lines were developed in the 1980's.

Today, Bank-A-Count provides processing services for a variety of industries and companies across the United States. Clients include property management companies, financial & non-financial institutions, and other businesses.

Your Customer Service Team

The cornerstone of what sets Bank-A-Count apart from its competitors is the outstanding customer service. You will always be answered by a friendly customer service representative that has extensive knowledge on the products we offer. The customer service staff at Bank-A-Count have an average of 16 years experience with the company.

Live phone service with real customer service reps
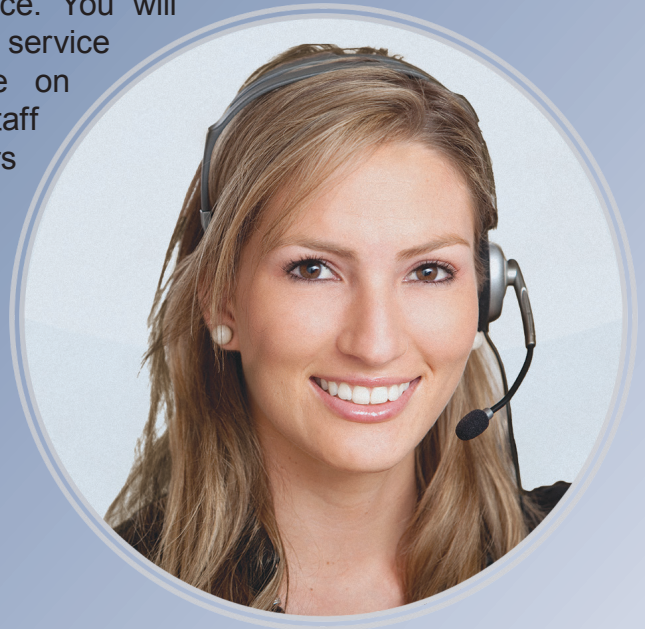

"...not only have you improved on an already well-oiled machine, the people that you have in place have just been wonderful..." Joanne Cadreau, PA

24/7

You have access to a secure website available to you 24 hours a day, 7 days a week. You have the ability to create and update products, place orders, track orders, review past order history, and much more. The system was built with you, the end user in mind, making it quick and easy for you to use.

Set Up Multiple Users

For added security you have the ability to create and manage linked accounts.

Features:

- Set up multiple users for added efficiencies
- Account administration rights such as: adding users, deleting users, unlocking users, resetting users' passwords, and setting user permissions

Value Added Services

- **NO CONTRACT REQUIRED**

- **Confidentiality Policy / SAS70 / SOC2 Audit**

- **Industry Leading Customer Service.** When you contact Bank-A-Count, you call a convenient toll-free number that puts you in direct contact with the printing facility, not a complicated switchboard. Just one easy phone call to your coupon specialists.

- **Fast, Reliable Delivery.** You can count on your standard orders being processed in just one or two working days! In fact, most orders ship the very same day as received!

- **Choices of Data Entry Options.** Choose the method of order entry that will work best for you. Use our SECURE website for individual ordering or to upload a datafile. We also accept file formats from the service bureaus. Another popular option would be to send your secure file via electronic submission using FTP. Contact us for details. We even offer a FREE Excel File Format.

- **No Minimum Orders.** Single orders uploaded onto the website and mailed out the next business day.

- **Image Capture Coupon Format**. Special coupon background with "drop out" ink. "CAR" (Courtesy Amount Recognition) boxes. No additional cost.

- **Free Return Labels.** Standard coupons include convenient detachable return labels for borrowers use. This special option is included at no extra cost! Our clients tell us the labels speed remittances and help assure accurate addressing of incoming payments!

- **Custom Logos.** The coupons can even include your logo or special art (additional setup fee).

- **Group Buying Discounts.** Contact us for reduced rates for multi-bank holding company or data center pricing.

Delivery Times Are Important!!

Delivery from Bank-A-Count is about as fast as can be! Standard orders usually leave our plant in just 1 or 2 business days.

This may sound a little hard to believe, but it really is true that many of our orders are actually processed and shipped the very same day the order is received! It can't get any faster than that!!

Why not give us a try? The Bank-A-Count program will help solve just about any slow delivery problems you've run into on payment book orders!

- ✓ Faster in-plant processing is standard at no extra charge on every order

- ✓ Standard orders from computer files received by approx. 11:00 AM CST are printed that SAME DAY!

- ✓ There are no minimum order requirements

- ✓ Email, FTP, and website capabilities to speed receipt of your order file

- ✓ Standard orders ship either UPS Ground or 1st Class Mail, but you may specify if you prefer Overnight Air service, etc. (additional freight cost, but no handling charge)

Laser Inserts

Payment books from Bank-A-Count can include a variety of inserts. A low cost and efficient method is laser printing of your special text and graphics directly on the standard coupon stock.

A laser printed insert can be personalized and positioned just about anywhere in a book:
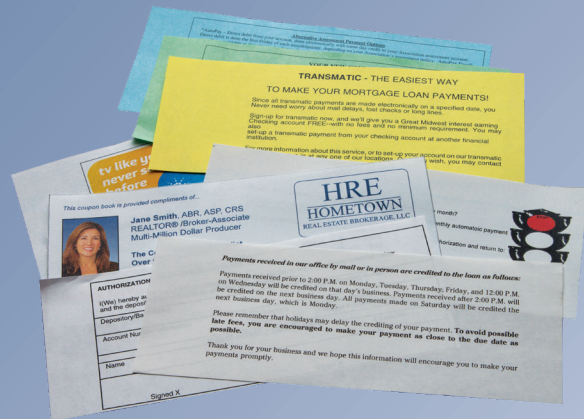

- First page in book
- Last page in book
- "x" number of pages after the first page in book
- "x" number of pages after the last page in book
- After every _____ payment (specify month of the year)
Bound Inserts

A perfect way to customize the look of your overall coupon book is to use custom bound inserts.

- Designed to your specifications
- Also available in color

Loose Inserts Available Too

To add marketing impact, you can have inserts stuffed loose with the outgoing books. For instance, if you have existing statement stuffers or brochures you could ship those to us for possible corporate wide use and we could stuff them loose with the books.

- Used for Marketing, Loan Servicing, or other use
- Cross-sell other services/products

Design to your specs – or provide materials to us

- Send us a mock-up of desired insert
- Or, send us supplies of the letter/brochure you wish to include
- We'll provide price quote and proof before implementing

Processing System

A time tested, integrated production processing system ensures the accuracy and on-time delivery of your documents. Bank-A-Count continues to improve with an internal processing system with even greater accuracy and faster delivery. Turnaround time for standard orders is normally 1-2 business days, with most shipments made within 24 hours!

The system has a single interface for the order processors to:
- Review customer comments and make the necessary changes
- Troubleshoot orders with order input errors
- Track orders that are in proof status
- Track how long orders are in production, ensuring that orders do not get hung up within the printing, bindery, or shipping areas
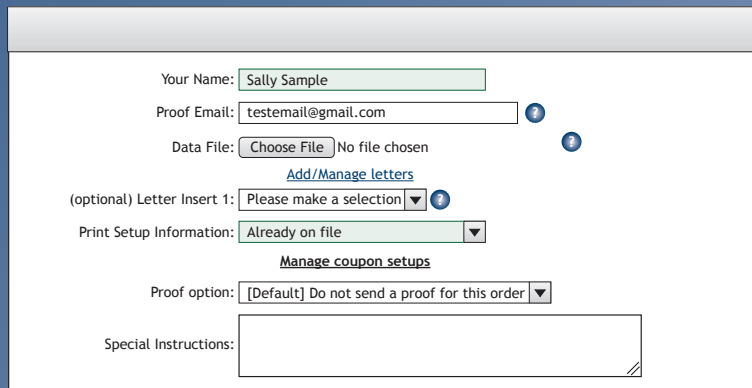

This system auto runs about 90% of the orders allowing your orders to flow through the production systems as quickly as the processing systems can handle them. Resulting in incredibly fast turnaround times.

Data Input Files from your computer system

We accept input files from most in-house software systems and most data centers/service bureaus. Normally, we can work from your record layout so you don't have to make programming changes. If your system can create a coupon order file, the odds are we can accept it!

If you are already using computerized ordering, simply send us a test file for a free, no obligation review! Files can be uploaded through our secure website or, if you prefer, FTP transfers are available as well. Please call for details!
